

Switching to Single-User Licensing

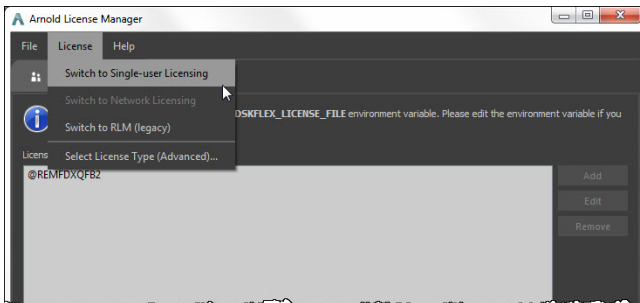

See [this playlist](#) to learn how to use the *Arnold License Manager*.

Suppose you're currently using one of your company's Arnold licenses, and those licenses are on a license server. But now you've got a single-user license and you want to switch to single-user, so the network licenses are left your render farm.

1. Open the **Arnold License Manager**

2. Click **License > Switch to Single-User Licensing**

3. [Sign in](#) with your Autodesk ID.
