

HtoA 1.14.4

31 March 2017

This release fixes a regression on Windows for Houdini Indie 16.

Installation

1. Get the install files on [Solid Angle Downloads](#).
2. Follow these [installation instructions](#).

Compatibility

This release uses Arnold 4.2.16.3 and OpenVDB 4.0.0.

Binaries available for the following Houdini, Houdini FX, Houdini Indie and Houdini Education production builds:

- 15.5.717
- 16.0.504.20
- 16.0.557

and for the following platforms:

- Linux x86_64 (gcc4.8)
- Windows 7 x64 (vc14)
- Mac OS X 10.8+ (clang7.3)

Please note that Houdini Apprentice does not support third party renderers and thus cannot run HtoA.

Fixes

- Cannot render with Houdini Indie 16 on Windows (htoa#808)
